

QUICK START GUIDE

LET'S GET STARTED

Introducing T-Mobile ONEsies—the world's first full-body wearable that radically re-envisioned the future of fashion, true mobility and the very meaning of unlimited coverage.

STEP 1 PAIRING IS CARING

Pair your T-Mobile ONEsies with a T-Mobile smartphone and get connected to America's fastest 4G LTE Network by holding down the built-in Bluetooth button. You will hear the familiar T-Mobile ringtone when pairing is complete.

STEP 2 IT'S TIME TO GO ALL IN

Once connected, step into T-Mobile ONEsies with your left foot. Then the right one. Pull T-Mobile ONEsies up over your shoulders and insert arms one at a time. Zip the front to secure it in place and T-Mobile ONEsies will begin conforming to you. Enjoy unlimited coverage.

STEP 3 MOVE FOR POWER

The revolutionary new *Thermanetic* system designed by T-Mobile harnesses energy generated by your body heat (thermal) and movement (kinetic) to keep both your smartphone and T-Mobile ONEsies fully charged.

STEP 4 BECOME A HUMAN HOTSPOT

With a simple push of a button, you can share that perfect 4G LTE coverage with nearby friends and family, giving those on slower networks (i.e. Verizon or AT&T) the chance to experience T-Mobile's blazing-fast, 4G LTE network.

AND THAT'S IT. YOU HAVE OFFICIALLY ENTERED THE FUTURE.

EXPLORING FEATURES & FUNCTIONS

T-Mobile ONEsie is the first full-body wearable and comes packed with patent-pending features that let you stay connected 24x7x365—all without the need for any additional devices. Just grab your phone and go!

FULL-BODY FITNESS TRACKING

By wrapping every inch of your body in cutting-edge connectivity and comfort, T-Mobile ONEsie provides the most comprehensive and in-depth real-time health data and monitoring ever available. T-Mobile ONEsie can monitor your vitals, sleeping habits, body positions, mood, breathing habits, activity levels, bladder fullness and much more.

ALL THE GOOD UNDER THE HOOD

T-Mobile ONEsie's hoodie is equipped with proprietary built-in HoodiePhones™ for unlimited music streaming.

4G LTE NANOFIBER TECHNOLOGY

T-Mobile ONEsie features revolutionary new nanofibers that are literally woven into the fabric of each T-Mobile ONEsie to light up T-Mobile's spectrum, generating perfect full bars—and safe—4G LTE signal everywhere you go.

UNIVERSAL CONNECTIVITY

T-Mobile ONEsie is both Bluetooth-enabled and GPS-equipped for full geo-location functionality and wireless connectivity to all of your favorite devices.

OPEN API

Starting later this year, T-Mobile will release ONEdev, which provides developers with new tools and APIs to create unique whole body experiences and native apps for T-Mobile ONEsie.

FASHION FORWARD CHOICES

Designed from the ground up by fashion icon, trendsetter and T-Mobile CEO, John Legere, T-Mobile ONEsie comes in four meticulously designed models to meet our customers' every need. T-Mobile ONEsie for everyday wear, T-Mobile ONEsie Sport for serious athletes, T-Mobile ONEsie Comfort for unmatched coziness and T-Mobile ONEsie @Work with a wrinkle-resistant wool-blend perfect for meetings with the C-suite.
